WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

NPIC J-1998 (7/64)

SUMMARY 25X1D

The Agryz Ammunition Depot North-north-east is located approximately 10 kilometers (km) north-northeast of Agryz (56-31N 053-00E) on the Agryz-Izhevsk rail line (Figure 1). The installation is served by a branch of the Agaryz-Izhevsk rail line. An all-weather road provides access to the Agryz-Izhevsk highway.

The installation (Figures 2 and 3) covers approximately 345 acres and contains two administrative buildings, 11 barracks, 63 ammunition storage buildings, four ammunition stor-

age bunkers, 24 storage buildings, and 48 support buildings. The ammunition storage buildings and bunkers are double secured and separated from the surrounding areas by a fire-break. The adjacent support area is secured by a single fence. Both areas appear to be active.

Comparative analysis of coverage in [REDACTED] reveals no apparent change in the installation.

25X1D

DESCRIPTION OF INSTALLATION

Railroad Service

The installation is served by three spurs of a branch of the Agryz-Izhevsk rail line. Each storage building serves as its own loading dock.

Road Service

An all-weather road provides access to the Agryz-Izhevsk highway.

Administrative and Troop Housing Area

Area D (Figure 3) contains two administrative buildings, 11 barracks, 24 storage build-

ings, and 35 support buildings. Trackage in the area indicates a high level of activity.

Ammunition Storage Area

Area F contains fifty-four 125- by 50-foot ammunition storage buildings, nine 115- by 45-foot ammunition storage buildings, four 140- by 75-foot ammunition storage bunkers, and 13 support buildings.
